Do You Need A Business Mentor?

Most businesses fail within two years because of a lack of proper planning and measuring, lack of personal development, lack of capital and/or they're simply in the wrong business according to their Soul's Mission Blueprint – this is the foundation for a stable, deeply fulfilling and successful life.

What I've discovered through owning businesses that have succeed and failed, is that it all comes down to making good decisions just about every step of the way. From ignition of the business idea, start up to implementation and continue growth. As entrepreneurs and business owners you're making decisions daily. So daily you have the opportunity to make your business thrive or go belly up.

Having a good mentor as your navigator through those important decisions you make daily, ensures you're making better decisions therefore getting better outcomes. When you have an intuitive visionary strategist as your coach or mentor, you're adding the advantage of 20/20 heinsight. You have some one looking into the future of your decisions and giving you potential outcomes, so you have more data upon which to make those important decisions helping you circumvent disaster.

How many times have things not gone according to plan for you and you've thought words to the effect, "If only I knew that at the time, or if only someone told me, I could have decided different and adverted this and got a better outcome."

With an Intuitive Visionary Strategist as your mentor, you don't just have a mentor guiding you to the fastest, safest and most economical pathways for your business to thrive - you have a Business Oracle navigating you through the myar of potential business and personal perils that can beseech any entrepreneur.

You may be able to survive in business without the help of a mentor or coach, but it's almost impossible to thrive... So you need an Intuitive Visionary Mission Mentor like myself when you want:

1. Accountability to make sure things get done - no excuses;
2. Clear direction making sure you're on track to the best path to your outcome;
3. Ongoing guidance to navigate you to the best pathways to reach your goals;
4. Strategies and innovative ideas for your business, staff, sales and marketing;
5. Someone making sure you work on your business and not in your business as an underpaid employee;
6. A confidant to confirm your hunches and decisions and/or tell you like it is;
7. Confidence you're not heading toward a disastrous outcome;
8. Hand holding from strategy to accomplishment.

*"There is no lack of **KNOWLEDGE** out there... Just a shortage of asking for **HELP**"*

A mentor will be like your strategic planner, marketing manager, sales director, training coordinator, mindset minder, partner, confidant, best friend... and, an Intuitive Visionary Mentor will help you avoid disasters directing you to the best, fastest and safest passageway.

The specific areas of business that I specialize in are strategies, life purpose, monetizing your mission, sales & marketing – specifically internet marketing.

Choose Your Mentoring Package

There are generally 3 critical times in your business cycle that you'd be wise to hire mentors and coaches to make sure you grow your business in the right direction. Those critical times are ...Ignition ...Start Up ...Challenge/Crisis Management.

If you're facing a challenge or crisis in your business and you need strategies, fast solutions plus navigation and personal support through to a successful outcome, this is the mentoring package for you.

Here's where I accelerate and you get me at my best.

My claim to fame was that I designed and implemented a winning mission strategy for a billion dollar industry facing and 11th hour doomsday scenario. My strategy achieved in just six months something the industry had failed to do in seven years of hard campaigning to Government. I made history and won an award for my effort. So I really am serious when I say you get me at my best when you have a challenge or crisis and you need fast navigation through, away or out of that situation.

You can have confidence you're working with an award winning strategist to help you find solutions.

We start with an Initial Visionary Mastermind Session to look at the entire dynamic at play from the practical business side to find what's not working and why – to the personal mindset, karma or interference that could be at the cause of the crisis/challenge. Then we design strategies to quickly overcome them and help you navigate your way through the storm to the clearing.

Working With Nicola As Your Mission Mentor

When you work with an Intuitive Visionary Strategist like myself, you have the advantage of 20/20 heinsight before venturing out on a project. You can learn what pitfalls lie ahead; what strategies will have the greatest success; who would make the best team members or partners; which direction is the best one to go in and so forth.

I've worked on business and mission strategies for Twainese Tycoons who use to fly into Sydney for the day, just to consult their Business Oracle, me. I've consulted with an entire industry body creating a mission strategy that saved them from ruin, made history and won me an Award (The Natural Health Industry of New Zealand).

I've helped Politicians, Olympians, Social Entrepreneurs and Campaigners with their strategies; saved business owners from going under with consolidation strategies; and stopped individuals from making bad business investments saving them hundreds of thousands of dollars. I've given direction to over 1,000 entrepreneurs on finding and monetizing their mission so they can make a bigger difference in their business; and directed business owners to incorporate their life purpose into their existing business so they can feel a deeper meaning in their working life.

From owners of publicly listed companies, Fortune 500 hundred strategists, to mum and dad business owners and fledging entrepreneurs - you'd be very surprised at the type of people who have consulted with me over the years – it's not just hippie business owners, but day to day business owners wanting the strategic edge an Intuitive Visionary Strategist can give them to grow their business or advance their mission, and avoid disaster and financial loss.

You too can have the edge taking advantage of my mojo.

“I was privileged to work with Nicola using her 10 Step Master Plan that made history and helped save an industry from an irreversible and disastrous event. Her plan harnessed the resources of a diverse group and was pivotal in the achievement, what seemed at the outset to be an impossible, of our mission to victory. I’ve seen how she can inspire and lift the spirits of a room of despondent men and women. I’m confident she can inspire you, your team or audience too.”

Eric Blankenbyl, Natural Health Alliance NZ

I’ve been trying to figure out how to monetize my business and make it work so it’s a win win for the world. Nicola, like an angel, made this all happen for me. I can tell you that I have worked with a lot of coaches and I never had the experience like I just had. Nicola Grace is an amazing transformational coach. I can now articulate very clearly and monetize so I can help as many people as possible in time that I have here. Thank you so much and looking forward to working with you more.”

Ben Joiya, Business Owner Marketing With a Heart

“I was Managing Director of a manufacturing company that could have gone under, along with 300 other businesses unless we stopped an irreversible tragic event about to take place. Collectively we had made many attempts to save our industry but were failing. We had no clear co-hesive plan, just angst. Then this knowledgeable strategic and professional woman came along with her MASTER PLAN. WOW! Nicola inspired me to step up in a way I didn’t know was achievable. She taught me the importance of staying focused with your eye on the end Vision and not getting side tracked, and helped an entire industry gain certain victory. If you get a once in a life time chance to work with her, I highly recommend you pounce on it.”
